2. BASIC PROVISIONS

2.1. Issues not regulated in the current Articles and the interpretation of these Articles are governed by Hungarian law, with particular regard to the provisions of Act V of 2013 of the Hungarian Civil Code ("Civil Code") on certain aspects of electronic commerce services and information society services from the 2001 Act CVIII (E-commerce law) and the detailed regulations on consumer-business contracts of Government Decree 45/2014. (II. 26.). The mandatory provisions of the relevant legislation shall apply to the Parties, without any special clause.

2.2. These Articles are effective law since 04 Sept, 2019. and remain in force until revocation. The Service Provider has the right to unilaterally amend the Articles (circumstances that may lead to change: change in shipping cost, change in legislation, business interest, changes in company). The modifications need to be issued 11 (eleven) days before the effective date by the Service Provider on their website - during which time the User is entitled to rescind or terminate the contract. By using this website, the User agrees that all regulations governing the use of this website are automatically applicable to them.

2.3. The Service Provider reserves all rights in connection with the content and dissemination of the website and webpages. It is absolutely forbidden to download, store (electronically), process, or sell any content published in the website or any aspect of the content without the written consent of the Service Provider.

3. REGISTRATION, PURCHASE

3.1. By making a purchase/registering on the website, the User declares that he/she has read and accepted the terms and conditions of this GTC and the Privacy Policy published on the website, and agrees to the handling of his/her data.

3.2. The User is obliged to provide his/her real data at the time of purchase/registration. In the event of false or personally identifiable information provided during purchase/registration, the resulting electronic contract will be considered void. The Service Provider disclaims any liability if the User makes use of its services on behalf of another person with the data of another person.

3.3. The Service Provider shall not be liable for delivery delays or other problems or errors due to incorrect and/or inaccurate data provided by the User.

3.4. The Service Provider shall not be liable for any damages resulting from the User's forgetting his/her password or the access of unauthorized persons for any reason not attributable to the Service Provider (if registered on the site).

4. AVAILABLE PRODUCTS AND SOFTWARES

4.1. Displayed products can only be ordered online. The prices displayed for the products are in GBP and include the statutory VAT. However, they do not include home delivery charges. No separate packaging costs will be charged.

4.2. In the web shop, the Service Provider details the name, description and product of the product. The images shown on the product data sheet may be different from the actual ones and may be used for illustration purposes.

4.3. If there is a product on sale, the Service Provider should inform the User about the sale and its exact duration.

4.4. If the wrong price is displayed on the website – despite the due diligence of the Service Provider – and the price is obviously incorrect, the Service Provider is not required to deliver the product at the wrong price, especially if there is a significant difference. For example, if the price is set at GBP 0 or GBP 0.01 because of a system error, then the Service Provider shall not be obliged to deliver the product at the incorrect price, but may offer the delivery at the correct price, in the knowledge of which the Customer may refuse to make the purchase. In accordance with the case law of the Hungarian judiciary, a significant difference is generally considered to be a deviation of at least 50% in a positive or negative direction from the market value of the given product or service. However, consumers are informed that the concept of striking value imbalance (Section 6:98 of the Civil Code) is not precisely defined by law.

4.5. In the case of a defective price as described in Section 4.4, there will be a noticeable mismatch between the true and the indicated price of the product that the average consumer will immediately notice. Pursuant to Act V of the Civil Code of 2013 (Civil Code), the contract shall be created by the mutual and unanimous expression of the will of the parties. If the parties are unable to agree on the terms of the contract, i.e. there is no mutually agreed statement on the will of the parties, it is not possible to speak of a valid contract that would give rise to rights and obligations. On this basis, an order that has been confirmed at the wrong/erroneous price is considered to be null and void.

(the legal relationship between the Parties in these General Terms and Conditions hereinafter: Contract)

1. Preamble

These General Terms and Conditions (hereinafter: **GTC**) determine the terms and conditions of the Contract between the Parties related to the use of the system composed of the firmware installed and run on hardware sold by the Service Provider to the User, and the software made available by the Service Provider on the www.ultraprog.eu website and installed and run on the User's own computer (the entire system hereinafter: System; the software that forms a part of the system, including its modified, further developed and/or adapted versions - if the User becomes entitled to use them in line with the provisions of this Contract -, hereinafter: Software, the firmware interoperating with the Software including its modified, further developed and/or adapted versions - if the User becomes entitled to use them in line with the provisions of this Contract -, hereinafter: Firmware), that is, the terms and conditions for the use of the System by the User, including the

terms and conditions applicable to running the Software and/or Firmware, as well as the rights and obligations of the Service Provider and the User.

The purpose of the Contract determined by the GTC is to make available the System operated by the Service Provider to the User for the User's own personal use, in order to run the Software on the User's own computer and the Firmware hardware sold by the Service Provider to read and modify the memory of the target device, in the framework of providing services under these GTC (hereinafter: Service).

ANNEXES:

The following annex (hereinafter: Annex) forms an inseparable part of the GTC
Annex: User's Manual

2. SUBJECT MATTER OF THE CONTRACT

2.1. In the framework of the Service, the Service Provider grants a non-exclusive, non-transferable licence for use to the User according to the Contract to be concluded according to these GTC, for installing, running and using the System solely on the User's own computer for the term of the Contract, and shall continuously operate the system and ensure use of the System for the User. System use shall be realised by running the Software on the User's own computer and by running the Firmware on the hardware device purchased from the Service Provider. The use of the System is ensured only for the User, and is permitted solely for the User's own private and/or training purposes, only on a computer and hardware device owned by the User, only by running the system during the term of the Contract (use of the System as described in this paragraph hereinafter: System Use).

2.2. Users may use the Service only in line with the provisions of these GTC.

2.3. System Use by the User may be implemented on the basis of a licence for one year for basic Firmware together with the hardware device and the software, purchased from the Service Provider, in which case the User shall not be obliged to pay any fees other than payment of the price of the hardware in full (hereinafter: Basic Licence), or, at the User's choice, on the basis of a licence for one year from downloading the given upgrade, made available by the Service Provider in exchange for payment of the annual fee for the further development of the basic Firmware and software made available by the Service Provider (hereinafter: Upgrade Licence).

2.4. In the event of the Basic Licence, the Firmware will be provided to the User in the form installed on the hardware device sold by the Service Provider, and the Software can be downloaded from the Service Provider's www.ultraprog.eu website, installed and run on the User's own computer by the User. In this case, the term of the Contract shall be one year from the date when the hardware is sold, during which the Service Provider shall grant a right to the User for running and using the System in line with the provisions of section 2.1.

2.5. In the case of the Upgrade Licence - if the User decides for this option and pays

the fee defined by the Service Provider - the User will download the upgrade made available by the Service Provider from the www.ultraprog.eu website and install it on their computer for the Firmware and/or Software already available to them under the Basic Licence (hereinafter: Upgrade). Upon payment of the fee to the Service Provider, the User will become entitled to run and use the System thus upgraded subject to the terms and conditions of section 2.1 for another year, by which the term of this Contract will be extended.

2.6. If the User fails to use the Upgrade Licence within the one-year term of the Basic Licence, the Service Provider will cease to be obliged to provide the Service and to ensure use of the System for the User, so the User will not be entitled to additional updates and support in respect of the System. On the other hand, the User shall not be obliged to remove the Software from their computer and the Firmware from the hardware sold by the Service Provider, and will remain entitled to use them for an unlimited period of time, subject to the restrictions set out in this section. On the other hand, the User will be entitled to such limited use and may request another Upgrade Licence from the Service Provider only if it already has a copy of the Software or its installation pack made available in the course of using the Basic Licence or the Upgrade Licence earlier on their computer, and the hardware device sold by the Service Provider and the Firmware installed on it are also available to the User. Accordingly, the Service Provider shall not be obliged to keep the Software and/or its installation pack available to the User after its initial download by the User, and to replace the hardware device already handed over to the User and the Firmware installed on it, i.e. to provide another copy of it to the User.

3. RIGHTS AND OBLIGATIONS OF THE PARTIS

3.1. The User may use the System or the updated System on a non-exclusive and non-transferable basis - by running the software on the User's computers and, in respect of the Firmware, by running the software on the hardware device purchased from the Service Provider - throughout the term of the Contract, in a way so that they may carry out operation for reading and modifying the memory of the target devices according to the functionality set out in Annex 1.

3.2. The User shall pay an amount corresponding to the price list published on the Service Provider's www.ultraprog.eu website as the price of the hardware device for the Basic Licence, and for the Upgrade Licence, the one-year service fee set out in the price list in addition.

3.3. After using the Basic Licence and/or the Upgrade Licence, the User shall register to the Service Provider's www.ultraprog.eu website by providing their e-mail address and password, by which the User will create a user account. The User will be able to download the Software made available in the framework of the Basic Licence after logging into the user account.

3.4. In the event of using the Upgrade Licence, the User will be able to download the Upgrade made available under the Upgrade Licence to the user account after 48

hours from payment of the one-year service fee, and will be able to run and use the upgraded System after installing the Upgrade.

3.5. The User may run the System only on computer(s) owned or leased and used exclusively by the User, and the hardware device purchased from the Service Provider, and may not grant Access to the System to third parties on any grounds.

3.6. In the event that the User enables third parties to use the Service without licence in violation of the provisions of the previous section of the Contract, this shall be deemed to be a serious breach of contract, on account of which the Service Provider may terminate the Contract with immediate effect and apply the legal consequences of a breach of contract.

3.7. The User shall ensure that the User has a unique and secure user name and password for reaching the Software and the Upgrades. The User shall treat the unique user name and password confidentially. The User has full liability for ensuring that no third party will obtain or access the user name and the password, and violating this obligation shall be deemed to be a serious breach of contract, and the Service Provider may terminate the Contract with immediate effect and apply the legal consequences of a breach of contract if this occurs.

3.8. The User shall immediately notify the Service Provider by e-mail if it becomes aware of access to the System by persons not authorised by the Service Provider or any other unauthorised use under these GTC or any other abuse, together with providing the data required for eliminating unauthorised System use.

3.9. The User may use the Service only in line with the description set out in Annex 1 to the Contract, on hardware and software equipment configured in accordance with the hardware and software requirements defined and supported by the Service Provider. The Service Provider reserves the right to change minimum system requirements unilaterally, and shall notify the User about this in writing at least 30 days prior to the date when the change takes effect.

3.10. The User may use the Service only for its proper purpose, in line with the provisions of these GTC and the user description (Annex 1).

3.11. The Service Provider shall not be liable for the User's use of the System on hardware and software configured in departure from the technical conditions set out in Annex 1 or in a manner that does not correspond to the instructions for use.

3.12. In exchange for a separate fee determined for training services, the Service Provider may provide organised or ad hoc training courses for the User if it is necessary for the User to become familiar with the operation and use of the Software and the Service.

3.13. The Service Provider may modify, develop and/or adapt the Firmware and the Software within its own discretion in order to improve operation to ensure the existing functions and/or in cases justified and along aspects justified by any change in the target device (hereinafter: Update or Updates) and to implement new functions (hereinafter: Upgrade or Upgrades). The Service Provider shall always

provide the Updates to all Users, whereas the User's use of the Upgrades shall be subject to the payment of a separate Service Fee (Upgrade Licence), the amount of which is set out in the Service Provider's price list in effect, posted on the www.ultraprog.eu website.

3.14. The Parties establish that the User shall have no access to the source code of the Firmware and the Software (including Updates and Upgrades).

3.15. Ervin Major and Boglárka Major as Service Providers are joint and several obligors and joint and several obligees in their legal relationships existing under these GTC and the Contract concluded on the basis of the GTC, so performance by either of them shall be deemed to be contractual performance, performance will discharge both of them from obligations, and either of them may claim the total price as regards their rights.

4. SERVICE FEE

In the event of using the Basic Licence, the User shall not be obliged to pay any fee in addition to payment of the price of the hardware device. In the event of using the Upgrade Licence, the Service Provider is entitled to a separate Service Fee in exchange for the Service, which is determined in the form of a fee posted in the Service Provider's price list then currently in effect, published on its website www.ultraprog.eu. The User shall pay the Service Fee in advance by the payment methods made available on the Service Provider's www.ultraprog.eu website, after which the User will become entitled to download the Upgrade and run and use the System thus enhanced in line with the provisions of section 3.4.

5. COPYRIGHTS AND RELATED RIGHTS

5.1. The Parties mutually find, and by accepting these GTC, the User expressly understands that the Firmware and the Software are subject to copyright protection under Act LXXVI of 1999 on copyright (hereinafter: Copyright Act), and that all author's economic rights related to the System and all of its versions modified, developed and/or adapted later on shall belong to the Service Provider together with the related documentation and description.
